

TRUFFLE HUNTING AND TASTING IN THE WOODS OF THE LANGHE

We are two Trifulau (Truffle Hunters) of Dogliani and for about 20 years, we dedicate ourselves with passion to the collection of black and white truffles to offer to those who prefer the quality of a local product. Truffles by now are famous all over the world, and fetch a high price, but truffle hunting is about hard work; walking for hours and hours, loving dogs, living an intimate relationship with the land, preserving the forest for future generations, sharing with other families and most of all, respect for a very precious fungus.

We love our work so much that we take people to walk with us on a real truffle hunt, the satisfaction of finding the truffle and collecting them in our area. In this regard we organize real truffle search trips with our dogs, in the evening and in absolute silence, to show our guests how we work. Truffle hunting usually is in the evening or late at night for many reasons. Dogs must work with fresh air, hot weather overstrain them. The Truffle Hunter is operating when nobody can see him, with green camouflage clothes in absolutely silent.

What can you expect?

We take you to a secret place in the woods and introduce you in the magic truffles world, made of mystery and passion for the nature. The real truffle hunting begins!

After that a truffle tasting will wait for you, paired with local delicacies as soft cheese, salami and a glass of an excellent wine.

Total duration: approx. 1,5 hours.

What's Not Included:

Transportation to the meeting point in the countryside is not provided. If you would like us to provide transportation, please email us for more information. Truffle(s) found during the hunt belong to the Truffle Hunter and may be purchased from your guide according to the day's bid price on the local market. In season, if an appreciable amount of black truffle is found and according to the truffle hunter's full discretion, a small black truffle may be given as a gift to the guests at the end of the excursion (Please note: white truffles are never given to guests).
